MG HS
HYBRID+
LUXURY SUV

INTRODUCING THE ALL-NEW HS HYBRID+

Designed with families in mind and powered by our advanced MG HYBRID+ technology, the new MG HS HYBRID+ delivers the best of both worlds; electric efficiency for everyday driving, and petrol power when you need it most. With more space, sleek design, intuitive tech, and intelligent safety features throughout, it's built to handle every drive.

19" ALLOYS

DYNAMIC EXTERIOR DESIGN

From the bold black grille with chrome accents to the slimline LED headlights and striking taillight bar, every feature is designed to impress. Roof rails in silver add a premium touch, while the sporty rear spoiler enhances the vehicle's aerodynamic profile. Bold styling elements combine with practical design to create a refined SUV that's ready for every adventure.

HS

Combining striking design, smart hybrid performance and elevated comfort, it's designed for drivers who demand more from every journey. With a refined hybrid powertrain and sophisticated styling, the MG HS Hybrid+ offers a confident, capable drive with low emissions and impressive value.

PERFORMANCE

Powered by a responsive hybrid system, the MG HS Hybrid+ delivers a seamless blend of efficiency and performance.

A wide-angle, front-facing view of the interior of a car. The dashboard is a long, horizontal black panel with a large central infotainment screen. The screen displays a user interface with various icons for weather, clock, music, and navigation. Below the screen are two air vents. The steering wheel is black with a silver MG logo in the center and has multiple control buttons on the spokes. The seats are upholstered in a light brown or tan leather-like material with a textured pattern. The door panels and side trim also feature this tan material. The overall design is modern and symmetrical.

PREMIUM INTERIOR ATMOSPHERE

The new MG HS Hybrid+ has been designed to offer exceptional interior space for all passengers. The horizontal, symmetrical layout of the dashboard creates a real sense of space.

The use of soft materials and precise assembly bring a high level of perceived quality. All details, such as the gear-lever and 3-spoke steering wheel, are carefully crafted using high-quality materials.

AN IMMERSIVE DIGITAL EXPERIENCE

At its heart are dual 12.3" displays, a crisp infotainment touchscreen and a fully digital virtual driver display that delivers everything from navigation to driving data with clarity and style. Satellite Navigation with live services* ensures you're always on the right track, while wireless smartphone charging means you can stay powered up without the clutter of cables. Every drive is smarter, simpler and more seamless.

CONNECTED COMFORT

Packed with intelligent features, the MG HS Hybrid+ keeps you effortlessly connected, informed and in control.

HYBRID POWER REDEFINED

The advanced powertrain pairs a smooth petrol engine with a powerful electric motor, working together to provide impressive acceleration, low CO₂ emissions, and reduced fuel consumption.

Whether cruising on the motorway or navigating city traffic, the MG HS Hybrid+ adapts intelligently between EV, Hybrid and Petrol engine modes. This ensures you always enjoy the perfect balance of power and economy, giving you the freedom to go further with confidence.

ENJOY AN ENHANCED DRIVE

The MG HS Hybrid+ can effortlessly switch between electric and petrol power depending on driving speed. Let the electric motor take you on your everyday life trips. But enjoy the peace of mind of the petrol engine which steps in at higher speeds and keeps the battery topped up.

And thanks to the quick-response motor and high-capacity battery, the HS is the fastest accelerating hybrid model in its class. Taking you from zero to 100km/h in just 7.9 seconds. With an engine power of 230Nm; and combined power of 165kW; wherever you need to go, the MG HS Hybrid+ will take you there.

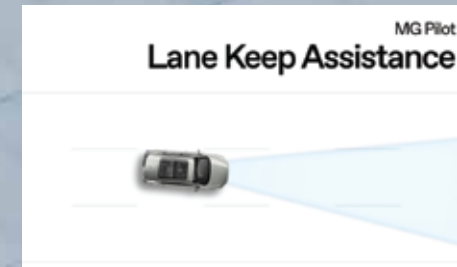

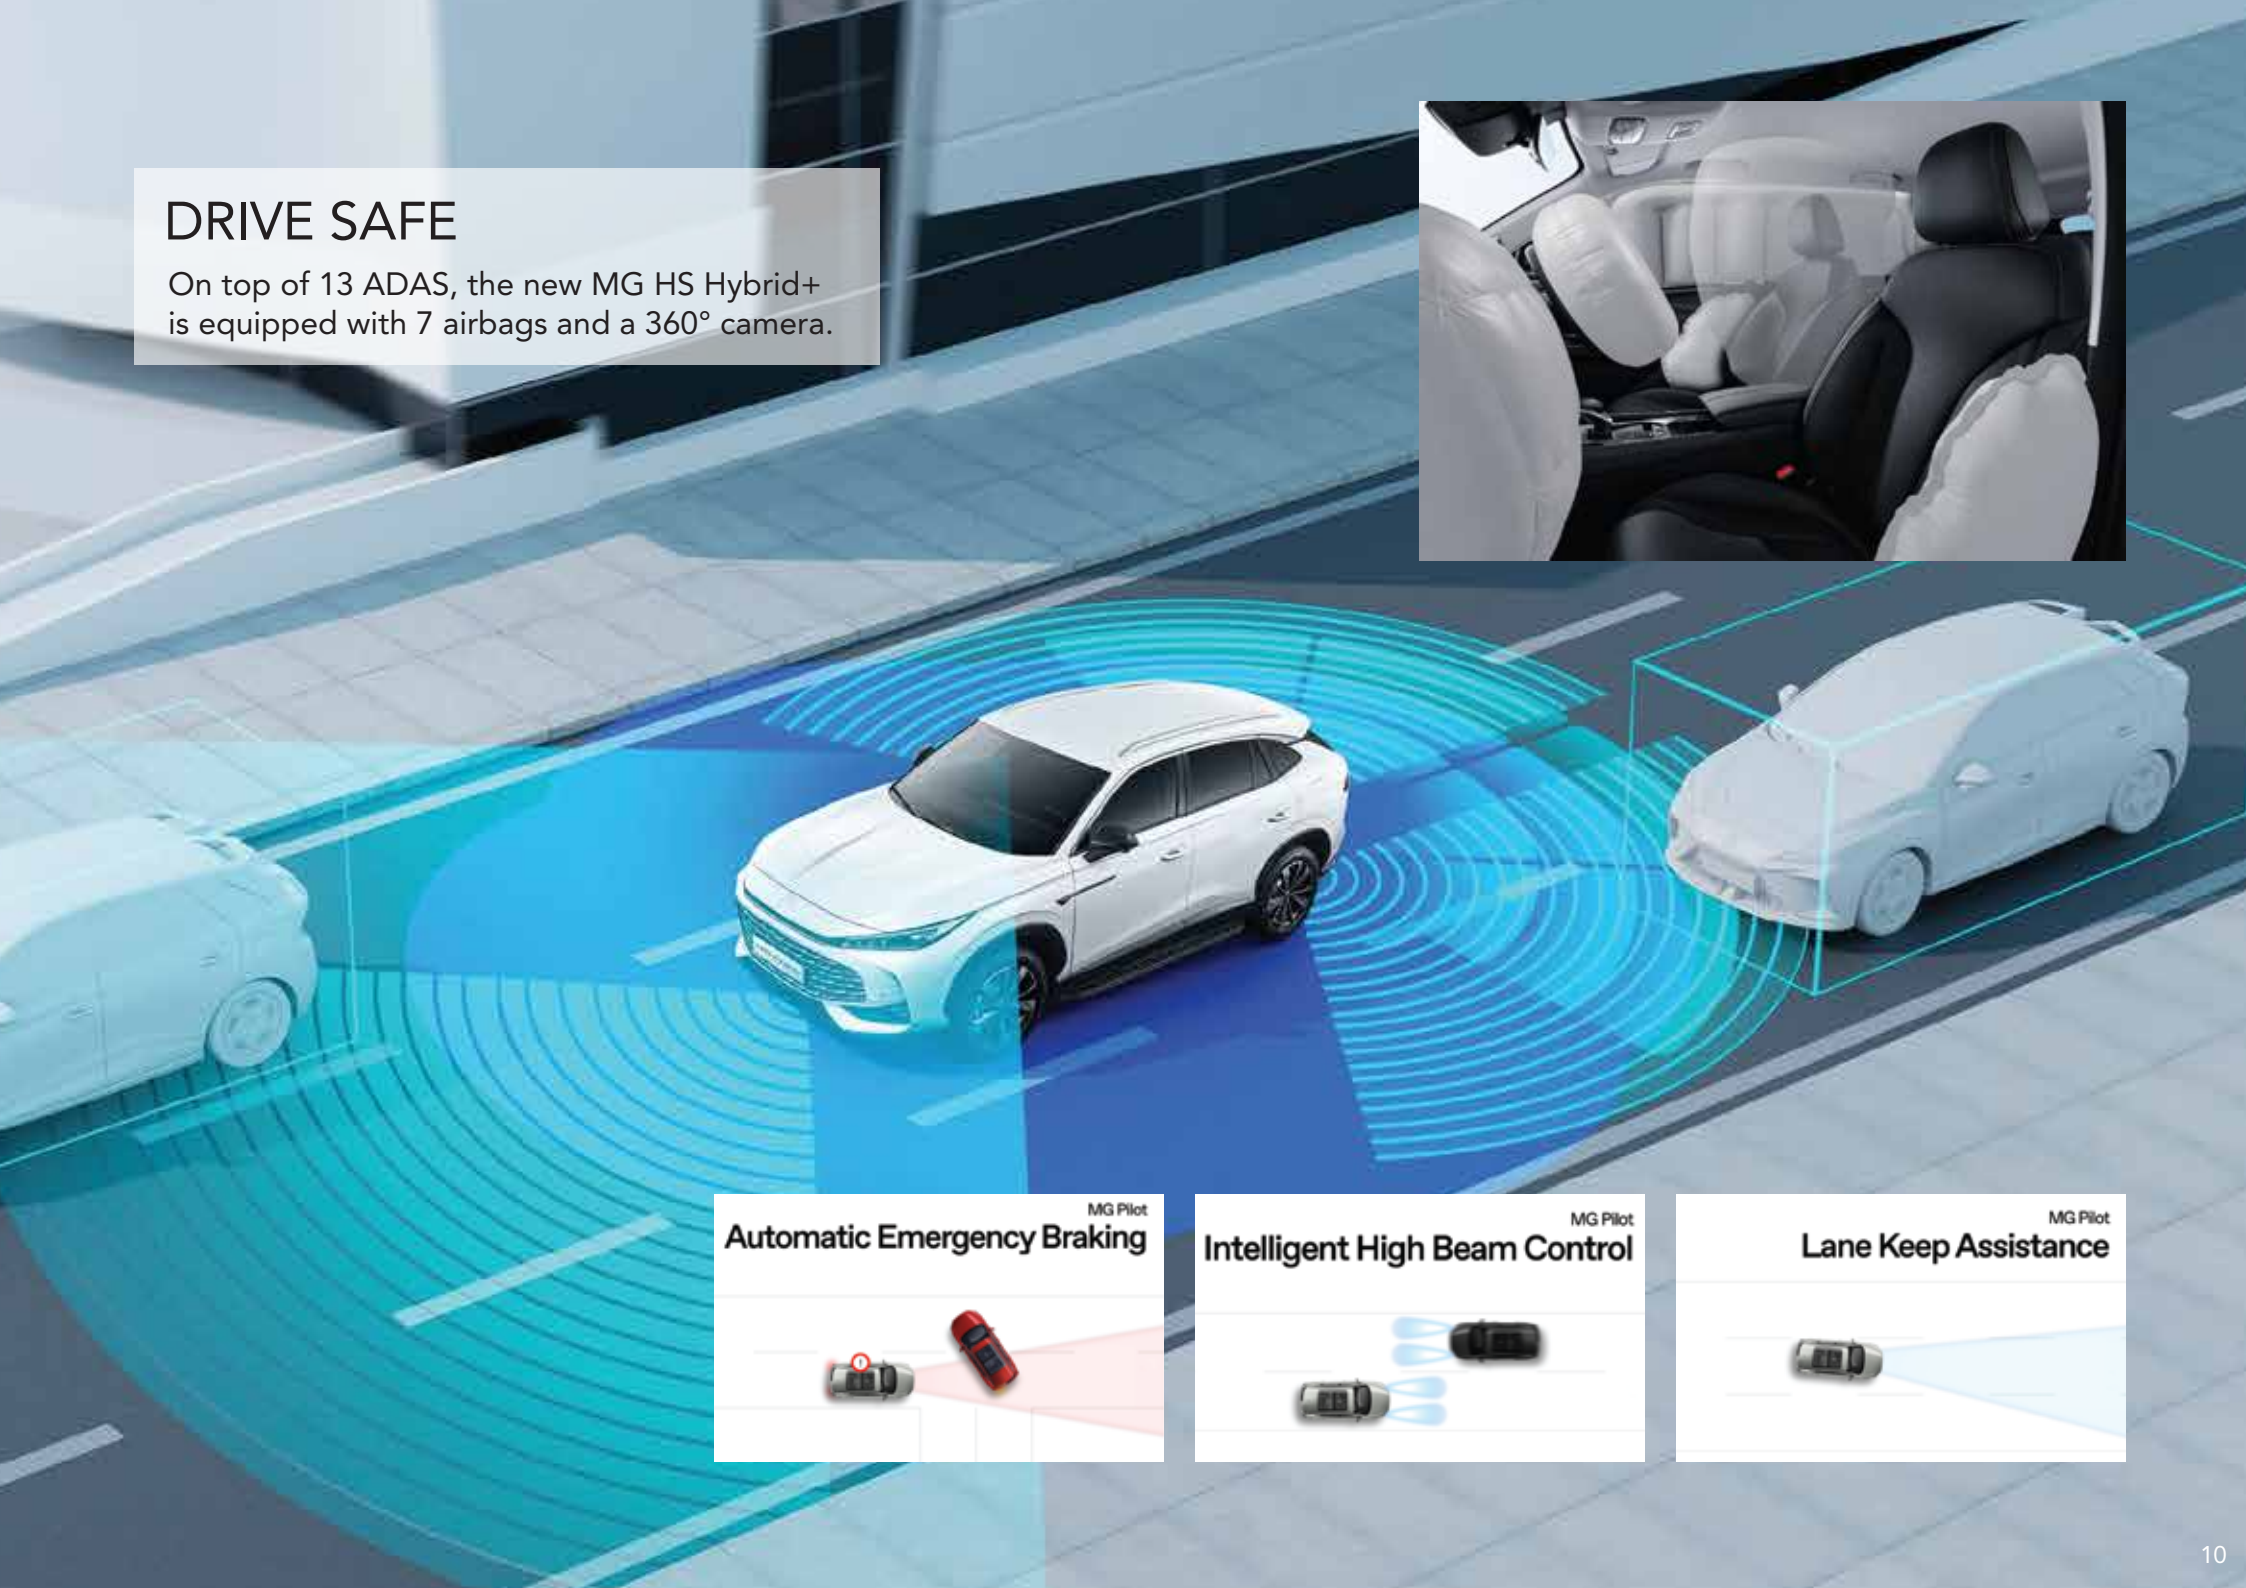

THE SOUND OF SILENCE

Life is loud enough. Thanks to its electric motor, the MG HS Hybrid+ gives you a quieter driving experience as it effortlessly switches between electric and petrol power depending on driving speed.

DRIVE SAFE

On top of 13 ADAS, the new MG HS Hybrid+ is equipped with 7 airbags and a 360° camera.

COMFORT AND ROOMINESS

Inside the MG HS Hybrid+, a spacious, driver-focused cabin awaits. Designed for both comfort and convenience, it features premium finishes and generous room for passengers and luggage alike.

SPACE FOR THE WHOLE FAMILY

Space on board has been central to the development of the new MG HS Hybrid+. The occupants benefit from generous legroom and headroom in both the front and rear. The ISOFIX attachment points in the rear ensure easy and safe installation of child seats.

Additionally, the luggage space offers a 507-liter capacity, ready to meet all your needs and equipped with a cargo net. Small items are well accommodated too, with 19 storage compartments throughout the cabin, including 8 for rear passengers.
